FAST PACE IS KEPT UP

Chicago, Pittsburg and New York In National League

TENNEY'S MEN WIN ALSO

Cleveland Beats New York Out of First Place in American League and Philadelphia Is Perilously Near the Leaders of the League.

The three leaders in the National league race continued their fast pace yesterday afternoon, each winning its game. Chicago shut out Philadelphia 1 to 0; Pittsburgh almost shut out Brooklyn, 4 to 1, and New York came near doing the same thing to St. Louis, the score being 2 to 1 in favor of the Giants. With the first break in the pace there will be something to happen, and each is striving to avoid being the team Tenney's men in Boston kept up their good work by defeating Cincinnati again, the score being 3 to 2. Let it be chronicled that the Boston Americans won a game yesterday afternoon. The St. Louis Browns, although they outbatted Boston and made less errors in the field, were the unfortunate ones. Cleveland displaced the New York Highlanders as leaders of the league by defeating them, 5 to 3, through heavy hitting. Philadelphia by winning from Detroit is within an ace of the first place, too. Boston's closest rival for last place honors, captured an easy thing from Chicago.

This Space Is Controlled By Central Labor Union of Barre and Vicinity

Attention, Union Men and Their Wives!

The workmen of Barre and vicinity are all unionized and the most of us have a certain pride in being able to show a check card in our different shops. Our employers and merchants are also members of their different associations—in fact, we are what would be practically called a Union town.

But still there is something lacking, for we cannot deny the fact that but the most of the goods for sale in our city are products of unorganized or convict labor and do not bear the Union label.

This fact is surely not creditable to any of us, and we certainly are not doing our duty to have such a state of affairs in a Union town. Do not seal it in your purchases.

Demand the Union Label Every Time.

WOMEN'S VOTES WIN.

Feminine Citizens Carry Public Ownership in Potsdam, N. Y.

Potsdam, N. Y., June 16.—The feature of a special village election held here Thursday was the large number of women voters who took advantage of their right to vote on a proposal to bond the village for \$24,000 for the construction of a municipal lighting plant to supply street lights only.

Fully one-third of the votes were cast by women, and their votes in favor of municipal ownership carried the proposition by a majority of 58. A year ago last March a proposition to raise \$40,000 for a lighting plant to supply street lights and lights for residences, etc., was carried by a small majority.

A few weeks later the Potsdam electric light and power company, which now lights the village, got an injunction restraining the village from proceeding with the construction of the municipal plant, on the ground that it had not procured permission from the state gas commission.

The injunction was made permanent by a decision of Justice H. T. Kellogg, and the appellate division affirmed the judgment. The village has appealed to the court of appeal, where the case is now pending.

The municipal ownership party, finding that the village could bond itself for a strictly municipal plant, brought about the special election of yesterday, at which the women's votes carried the day for them.

BURLINGTON GRAND LIST.

Gets a Good Sized Boost This Year—Work of Assessors.

Burlington, June 16.—The Burlington assessors completed their work yesterday on the grand list for 1906.

The result of their labors shows a gain of \$129,770 on the grand list over the grand list of 1905, and a gain of 242 polls in the same time.

The footings for 1906 follow: No. of polls, 5,172; value of real estate, \$9,819,277; value of personal estate, \$8,611,509; total valuation, \$18,430,786. The footings for 1905 showed: No. of polls, 4,930; value of real estate, \$9,740,267; value of personal estate, \$8,628,781; total valuation, \$18,369,048.

The assessors will file their footings with the city clerk. Yesterday was the day fixed by law for them to complete work, but they were occupied nearly up to the limit.

Work on the quadrennial appraisal will be begun Monday. The assessors will then go out and appraise each piece of property personally, which will form the basis for taxation for the next four years.

LIGHTNING PRINTS BIRD AND SNAKE ON HER ARM

New Jersey Woman Had Hold of Glass Dish, Which She Could Not Drop for Some Hours.

New York, June 16.—Mrs. Thomas Lynch was picking lettuce in her garden at 416 Fulton street, Union Hill, N. J., on Sunday afternoon when the remarkable storm descended. She went to her gate with a glass dish in her hand, just then lightning struck so close by that her hand, touching the gate, felt the shock. She found that her fingers clasped the dish so tightly that she could not loose her hold on the dish.

Next morning the arm became black and swollen. On it, between the shoulder and elbow, pale figures began to appear. Finally they showed plainly printed on the skin, a picture of a bird resembling a pheasant, a picture of a snake and characters like the Chinese inscriptions on boxes of tea.

SENIORS START FOR CAPITAL.

Graduating Class Stowe High School to Visit Washington.

Stowe, June 16.—The senior class of the Stowe high school, composed of seven members, accompanied by Mrs. A. H. Cheney as chaperone, left for Washington yesterday. The party will go via Springfield, Mass., and New London, Conn., to New York city, reaching Jersey City in time for breakfast this morning. Six hours will be passed in Philadelphia, a part of which will be given to a visit to the United States mint. Arriving in Washington Saturday night the party will stop at Hotel Fredonia. Four days will be passed in Washington and the time will be devoted to excursions to Mount Vernon and other places of interest. The party will leave Washington Thursday morning, arriving in Stowe Friday night.

STATE PROHIBITION CONVENTION.

Will Meet in Burlington on Wednesday July 4th.

TENNIS IN ENGLAND.

Young Jay Gould Defeated World's Champion 3 Sets to 1.

London, June 16.—S. H. Smith, the English expert, defeated Little, the American, in a tennis singles, in the tennis tournament for the Davis cup. Smith captured three straight sets.

H. J. Doherty, also, captured his contest with Holcomb Ward in three straight sets.

Jay Gould, the young American court tennis expert, yesterday defeated Fair, the world's champion by three sets to one.

NEW CLUE TO MURDER.

Murder of Mrs. Alice Kinnam Now Ascribed to a Creditor.

New York, June 16.—Letters found in the Stetson mansion it was declared yesterday, afford a pointed clue and a definite motive for the murder of Mrs. Alice Kinnam, seven days ago, and an arrest is expected. It is now surmised by the police that a creditor to whom a large amount of money was due, called at the house on the night of the murder, expecting to receive money, but failing committed the crime.

RUSSIAN OUT-LOOK WORSE

Democratic Leaders Are Very Pessimistic

COSSACKS DISAFFECTED

Concessions Now Might Not Save the Government — The Radicals Seem Certain to Cause a Conflict.

St. Petersburg, June 16.—Such shrewd judges of the situation as Professor Milyukov, leader of the Constitutional Democrats, are growing more pessimistic daily. The radical elements in the lower house of Parliament are getting more and more out of hand, and events in the interior are marching so rapidly that people almost doubt whether the surrender of the Government to the demand for a responsible ministry now would not come too late. The leaders consequently are preparing for contingencies, and the Parliament is growing constantly in the country, and if the extreme elements can be held in check a little longer the leaders hope that when the crisis comes the Government will realize the futility of resistance.

On the other hand the agrarian movement, which is now extending in all directions, threatens Parliament as well as the Government, and it is increasingly manifest that the troops who come from the villages are siding with the peasants, from whom they are recruited. Even the Cossacks are beginning to rebel against the odious work of holding the people in subjection. M. Svenshuloff, a Cossack member of the Lower House, claims to have received a thousand letters from Cossack soldiers saying they tire of playing the role of oppressors of the people, and adding that the time-honored name of Cossack, formerly synonymous with brave protectors of the country against the ravages of savage hordes on the border lands, is now mathematized, and they desire to right the wrongs they have been compelled to inflict on the nation.

Omnicious of the Government's inability to cope with prospective agrarian disorders, is the news which comes from Poltava, one of the richest and most populous farming provinces of Russia, that the governor is in daily receipt of requests for troops for the protection of estates from the peasantry, who have not the slightest awe of the rural guards. The governor will be unable to comply with these requests, because the local troops, one regiment of which mutinied on Sunday last, are so infected by the revolutionary propaganda that detachments sent to the villages immediately fraternize with the peasants. The governor therefore begs the St. Petersburg authorities to send him fresh troops. The conditions in Poltava with regard to the army are probably duplicated elsewhere. Indeed, the army is a frail reed for the Government to rely upon, if it rejects the Parliament's agrarian scheme. The general staff objects, moreover, to furnishing troops for police duty and has refused requests for guards for Government liquor shops, which are increasingly subject to attacks, on the ground that to comply with all these demands would interfere with the strategic necessity of the empire.

SITUATION CRITICAL.

Banks, Shops and Factories in Russian Towns Closed by Disturbances.

Bialystok, Russia, June 16.—The situation here yesterday following Thursday's outbreak, in which 30 Jews were killed, and a hundred wounded, is extremely critical. Business is practically at a standstill. Banks, shops and factories are closed.

SEVEN INJURED.

In Collision of Trolley Cars in New York Yesterday.

New York, June 16.—Seven persons were injured and the occupants of two trolley cars were thrown into a canal, during which several women faintly yesterday when the cars came together on the Manhattan end of the Williamsburg bridge. The seven injured were cut by flying glass, or suffered from shock and contusions.

BUILD ON ROCK AT ODDS OVER PACKERS' BILL

Take Warning From the Man of Old—See That Your Foundation Is Right.

We are all of us familiar with the parable of the man who builded upon the sand. No one now-a-days would think of putting up a house or a factory on anything but a solid foundation. Some of the "sky-scrapers" of New York City are set on foundations of from thirty to fifty feet below the street.

It is as important to build your health upon a solid foundation as anything else. Health is happiness and is the highest gift to mankind. Nature intended that we should all enjoy the full fruits of health, but our surroundings are sometimes such as to mar this ecstatic condition.

Those who are under baneful influences, have to help Nature along. Don't make the mistake of taking medicines that are full of alcohol and narcotics. If you do, you are building upon sand.

If your constitution is weakened, if your lungs are not strong, if your blood is thin, if you are subject to colds, take Mages's (Malt) Emulsion. It will build you up and make you strong. It contains no alcohol. Nothing but pure cod liver oil, syrupy, diastase, non-alcoholic malt and hypophosphites enter into its composition. Cod liver oil and malt (non-alcoholic) are the greatest builders known to medicine science, and if you take Mages's (Malt) Emulsion, you are surely building on rock. It contains no whiskey, no wine—it is just food; it is a builder, not a destroyer. It may be procured of E. A. Brown, Druggist, 45 North Main street, Barre, Vt.

KOREAN GIRLS CANNOT WED TILL PRINCE DOES

Heir to Throne to Make New Choice Hence All Eligible Maidens Are Forbidden to Marry.

New York, June 16.—A special cable to the Sun says:

Thousands of the most beautiful maidens of Korea are languishing in spinsterhood owing to an edict of the government. A year ago the Crown Prince became a widower and he has now decided to remarry. The government officials throughout the country have been instructed to forward to Seoul the names and full descriptions of the most eligible maidens. Meanwhile, instructions have been issued that no young women of the better class shall be married until the Crown Prince has announced his choice.

The governors of Kyeryok, Chungbuk and Kyungsang dissolved the edict and allowed their daughters to marry. Consequently they are in great disfavor at court and are to be severely punished.

NEW OBSTACLE.

Joint Treaty on Disputed Points With Canada Looks Far Off.

Washington, June 16.—A queer obstacle has loomed up in the way of a joint treaty covering questions in dispute with Canada. It is in connection with the bill for the protection of Niagara Falls now in conference between the two houses of Congress.

The Senate put an amendment upon that bill, an motion of Mr. Hopkins, providing that there should be no discussion between the United States and Great Britain regarding the waters of Lake Michigan or waters that are not boundaries. Secretary of State Root has sent the conferees a letter, stating that such a provision as the Hopkins amendment would seriously embarrass the framing of the treaty between himself and Ambassador Durand.

The Canadians insist that the water diverted for the Chicago drainage canal shall be a subject for discussion and negotiation between the British government and the United States. They argue that this water now serves more than a million people, and that there is a fall of more than 100 feet in its course, which is being utilized for power. Those interested in the drainage canal say there must be at least a flow of 10,000 cubic feet per second, and prefer that it should be 12,000 cubic feet per second.

TRAVELING MAN MISSING.

William H. Lyman Has Not Been Heard From Since June 5.

Brattleboro, June 16.—William H. Lyman, of Hinsdale, N. H., formerly traveling salesman for Dunham Bros., of this place, has been missing since June 5. On that date he started on a regular trip for a Boston shoe firm, expecting to return last Saturday. He has not been heard from since either by his children or his employers. He is about 60 years old and has not been well since the sudden death of his wife last fall. He was traced to Glenfield and Amherst, Mass., and there all trace of him was lost.

DIPHTHERIA IN PUTNEY.

Five Persons Placed in Quarantine, One Being Dangerously Ill.

Brattleboro, June 16.—Since the death from diphtheria of Ransom C. Blood in Putney, Wednesday morning, five persons having sore throats have been placed under quarantine regulations. Three of them have diphtheria, Waldo Howard being dangerously ill. Harry Crowley, one of the three, is a member of the graduating class of the Brattleboro high school.

AT ODDS OVER PACKERS' BILL

President Strongly Objects to Committee's Amendments

THE COMMITTEE PUZZLED

Chief Complaint of President Said to Be Absence of Adequate Provision for Night Inspection of Meats.

Washington, June 16.—The President's letter to Chairman Wadsworth attacking the substitute provision for meat inspection as adopted by the committee of agriculture of the House, has been the topic of general discussion among the members of the House today. Mr. Wadsworth has thus far declined to make public the President's letter, but enough of it has become known to warrant the assertion that the President, while dissatisfied with the bill in its entirety, bases his opposition chiefly on three features: namely, the alleged lack of suitable night inspection of packing establishments, the provision for a court review and the matter of assessing cost against the government.

A minor point of difference between the President's opinion and the committee substitute is the provision for the appointment of inspectors outside of civil service regulations. The President is understood to be in favor of leaving the matter of appointment of inspectors entirely to the discretion of the secretary of agriculture.

FOR THE WORSE.

President's Idea of Almost Every Change in Beef Amendment.

Washington, June 16.—Secretary Loeb yesterday gave out the following summary of the letter President Roosevelt wrote Chairman Wadsworth of the House committee on agriculture disapproving of that committee's substitute for the Beveridge amendment to the agricultural bill regarding the inspection of meat products:

"In the letter to Mr. Wadsworth the President stated that almost every change in the proposed House amendment was a change for the worse as compared with the Senate amendment, and that in the President's judgment so framed as to minimize the chance of robbing out the evils of the packing business; that the President felt it would doubtless suit those packers who objected to a thorough inspection, but that he also felt it would in the long run be a heavy blow to the honest meat raiser and the honest packer; that the proposed amendment would gravely hamper the secretary of agriculture in doing the work appointed for him to do and would simply defer the day when we could restore the foreign and interstate trade in meat to a satisfactory position. The President has explained verbally that he is less concerned with the question whether the packers or the government should pay for the inspection than with certain other features in the bill."

AFTER LAKE SHORE ROAD.

And to Prosecute Standard Oil for Re-bating.

Washington, June 16.—Instructions have been given to begin criminal proceedings against the Lake Shore railroad. George J. Grammer, vice president of the Standard oil company at Buffalo, the Standard oil company, and whatever others may be shown to have been implicated in the payment and receipt of rebates, which are disclosed in the interstate commerce commission hearing at Cleveland.

The contemplated proceedings may include Edward Bogardus, traffic manager of the Standard oil company at Chicago, and other officers of the Lake Shore at Chicago and Cleveland.

This, together with the complete breakdown of the Standard oil company, when it was given the eagerly sought opportunity to make a defense before the commission, was the denouement of the commission's session.

JEROME TO BABCOCK.

Tells Congressman He Need Not Testify Here About the Mutual.

Washington, June 16.—District Attorney Jerome has written a letter to Representative Babcock saying that he need not appear before the grand jury to give testimony regarding certain campaign contributions by the Mutual life insurance company.

Some days ago Mr. Babcock was asked to appear, but he pleaded that he was a little too busy, and that his wife was ill.

LARGE INCREASE.

Banner Year for the Country's Foreign Commerce.

Washington, June 16.—A bulletin issued by the department of commerce says:

The foreign commerce of the United States during the fiscal year which ends this month, promises to exceed in both imports and exports that of any earlier year. The details of 10 months of the year's commerce have been announced through the bureau of statistics, and should May and June show as large a monthly average the total imports will be \$1,225,000,000 and the exports \$1,786,000,000.

In imports the increase occurs in all classes except food stuffs, and in exports the increase occurs in every class, but especially in food stuffs and manufactures. The decrease in the importation of articles of food occurs chiefly in sugar and coffee.

Trade with the non-contiguous territories of the United States also show an increase in the grand total, but not in merchandise received from the sections thus designated. The aggregate of trade with the non-contiguous territories will probably also exceed that of any previous year.

BRYAN OFF FOR NORWAY.

Much Impressed by the Russian Duma, He Says.

St. Petersburg, June 16.—William J. Bryan left here yesterday afternoon for Stockholm. He will spend a few days in Sweden and Norway, and hopes to be present at the coronation of King Haakon VII. at Trondheim, on June 22.

Mr. Bryan visited the Duma again yesterday morning. He met several of the Duma's leaders during his stay here. Thursday he visited the foreign office.

During the debate on the agrarian bill yesterday many members of the Duma were present to Mr. Bryan. In the great hall a
